ERKADO

doors are our world

Every house is fitted with interior doors. This is why thinking about doors from the perspective of their functional and practical features has long been insufficient. Underlining the best qualities in a perfectly furnished house, today they are an important component of interior design. For this reason, we create modern solutions, introduce attractive design and focus on the quality of workmanship to let you enjoy the choice of the Erkado doors.

We are committed to developing all business areas relevant for creating a product that meets your expectations. We achieve this goal by investing in technologically advanced production lines, staff training and systematic analysis of consumer needs. Our dynamic development would be impossible without the activity of the sales network participants. Thank you for your inspiring suggestions and friendly feedback.

LAMELLAS

WALL-MOUNTED

Wall lamellas: decorative strip OAK ST CPL, adapter BLACK ST CPL, skirting board OAK ST CPL, door BALDUR 3 OAK ST CPL, black VSG glass

Decorative lamellas are mounted on the wall as a decorative element and at the same time improve the acoustics in the room.

Mounting is possible in several ways - the decorative skirting board can be mounted to the wall by means of a mounting strip only or with the use of adapters which constitute a base for the panels.

Decorative lamellas are available with PREMIUM and ST CPL laminates and can be joined in selected combinations.

Installation vide variant with an adapter:
<https://youtu.be/p317u3cWMmg>

Installation vide no adapter variant:
<https://youtu.be/jFa5afWWFOM>

ST CPL & PREMIUM
adapter, length 2750 mm
decorative strip (mounting strip included), length 2750 mm
end strip, length 2750 mm

The individual elements of the decorative lamella system are commercially available in a length of 2750 mm, however each product has a production length of 2800 mm and is delivered in this length, where 25 mm per side is a margin for free trimming before installation and also a reserve in case of transport damage.

The wall lamellas can also be mounted without an adapter directly to the wall using only a mounting strip on which we mount the decorative strip. Decorative strip (with the mounting strip included) can be purchased only in multiple of 3 pieces, e.g. 3 pcs, 6 pcs, 9 pcs, etc.

- adapter - quantity in pack 1 piece
- end strip - package quantity 1 piece
- decorative strip + mounting strip - pack of 3 pcs + 3 pcs

FORTECA RC2 & RC3 with OAK ST CPL laminate

FORTECA RC2, decor NATUR OAK PREMIUM, anti-burglar RC2 handle, black matt

FORTECA RC 2		
GOLD PACKAGE	SILVER PACKAGE	DOOR LEAF

RC2 – Important:
 For compliance with RC2 burglary resistance class as per the PN-EN 1627:2012, the hardware should meet the following requirements:

- Min Class 2 as per PN-EN 1906:2012 – for handles and door face plates
- Min Class 4 and 1 as per PN-EN 1303:2015 – for lock cylinders

FORTECA RC 3		
GOLD PACKAGE	SILVER PACKAGE	DOOR LEAF

RC3 – Important:
 For compliance with RC3 burglary resistance class as per PN-EN 1627:2012, the hardware should meet the following requirements:

- Min Class 3 as per PN-EN 1906:2012 – for handles and door face plates
- Min Class 4 and 1 as per PN-EN 1303:2015 – for lock cylinders

GENERAL INFORMATION

- FORTECA inwards/outwards opening burglar-proof doors are rated for sound insulation at $R_w=38$ Db, have a burglary resistance class of RC2 OR RC3 as per PN EN 1627:2012 and class 5 for mechanical durability.
- available in the GOLD and SILVER packages with optional installation kit and steel door frame.
- designed to be used as an internal front door.

CONSTRUCTION

- timber stile covered with glulam HDF boards
- specially designed solid core filling
- whole door leaf reinforced with a steel panel
- door leaf thickness of 46 mm

FINISHING

- leaf edge made in the STANDARD technology (with CPL 0.2 & 0.7 laminates, with the ABS edging in the same colour as the leaf only or with a standard black edge for an additional charge)
- 8 mm or 220 mm wide black brushed steel, brushed gold or OAK CPL inserts (inlays) flush with the door leaf, on both sides of the leaf
- the edge laminated in the same colour as the door leaf or, optionally plain black (NATUR OAK PREMIUM HORIZONTAL, black edge with a transverse structure)
- HDF board covered with the FINISH, GREKO or PREMIUM laminate
- side and top panels glued to the wall (only with a masonry wall installed door frame and an 8 cm clip-on square) made to order for additional charge - page 134

HARDWARE

- four silver 2-pin hinges; $\varnothing 16$; 3D adjustable (2D with steel frame)
- four-point security hook bolt lock as standard for two lock cores
- four-hinge bolts on the hinge side
- possibility to apply an arm door closer
- lower lock PZ centre is 92 mm

FIXED REBATED DOOR FRAME

- fixed timber door frame covered with MDF boards; Internally reinforced with a steel square on the door striker plates side for FORTECA RC3
- installation in the range of 90-450 mm every 40 mm
- adjustable main grip in the door frame and two adjustable grips for the bolt hook and additional lock

GOLD PACKAGE

- the GOLD PACKAGE FORTECA doors are complete with a steel or timber threshold, with a multipoint lock, and pre-drilled holes for a security handle and upper face plate. They come with a door viewer (hole to be drilled by the customer) and certified security handles and lock cores.

SILVER PACKAGE

- the SILVER PACKAGE FORTECA doors are complete with a steel or timber threshold, and a multipoint lock. We recommend ordering a door viewer and certified hardware from the ERKADO range or ordering the same from an external supplier keeping in mind the important note on compliance with the anti-burglary requirements (p. 100).

AVAILABLE DOOR LEAF WIDTHS

SILVER PACKAGE

DOOR LEAF

GENERAL INFORMATION

- HERSE SET doors are designed for housing and public utility building as an entrance internal door (excluding the "80N" width).
- HERSE SET leaf with fixed and adjustable door frame with each of threshold available is rated for sound insulation at $R_w = 32\text{dB}$
- HERSE SET doors in GOLD and SILVER packages are fully preassembled with a threshold fitted, and pre-drilled holes for handle and face plate installation for the GOLD version.

CONSTRUCTION

- timber and MDF stile covered with two HDF boards
- specially designed solid core filling
- robust steel channel section reinforced
- door leaf thickness of 46 mm
- additional gasket in the door leaf

FINISHING

- door leaf edge made in the SOFT or STANDARD technology
- CPL 0.2 & 0.7 laminates available only with the STANDARD edge with the ABS edging in the same colour as the door leaf only or, for an additional charge, with a standard black edge
- 8 mm or 220 mm wide brushed steel, black or OAK CPL inlays flush with the door leaf, on both leaf sides
- STANDARD edge laminated in the same colour as the door leaf or, optionally, plain black edging (NATUR OAK PREMIUM HORIZONTAL, black edge with a transverse structure)
- pre-cut up to 8 cm as an option
- custom order with the lower lock only as an option
- side and top panels glued to the wall (only with the adjustable door frame and an 8 cm square) - page 134

HARDWARE

- three silver 2-pin hinges; $\varnothing 16$; 3D adjustable (2D with a steel frame)
- two 3-pin Class 2 rated security locks with a thumb turn (optionally only lower)
- three hinge bolts on the hinge side
- possibility to apply an arm door closer
- lower lock PZ centre is 72 mm
- optionally, a bolt strip lock with two cores, for an extra charge

REBATED FIXED AND ADJUSTABLE DOOR FRAMES

- optionally, an electric door strike can be used in the door frame for the lower lock with no upper lock in the door leaf.
- adjustable main keeper in frames
- the 80N width is available for the fixed door frame only

¹⁾ plain white laminate imitating a painted surface
²⁾ special **AntiFinger** **NEW** coating to reduce dirt and fingerprints
³⁾ available as of 01/04/2022

GENERAL INFORMATION

Fire protection, smoke control and sound insulation are ensured only when a complete doorset is installed, including a fire door leaf (with gaskets, lock, hinges and drop-down gasket pre-assembled), door frame, door closer, as well as a lock core and handle in compliance with the Polish Standard.

The sound insulation of the HALSPAN door system supplied with a drop-down gasket as per PN-B-02151-03:1999 is rated at $R_w=32$ dB

The door leaves are marketed complete with a timber or steel door frame only.

CONSTRUCTION

- filled with a special HALSPAN board with a thickness of 44 mm for Type EI30 and 54 mm for EI60
- overall door leaf thickness 50 mm in EI30 and 60 mm in EI60
- softwood door frame
- fire rated and smoke intumescent door gasket
- drop-down gasket
- transparent fire-resistant glass; the glass width is fixed (not dependent on) the door leaf width

FINISHING

- leaf edge made in the STANDARD technology (with CPL 0.2 & 0.7 laminates, with the ABS edging in the same colour as the leaf only or with a standard black edge for an additional charge)
- 8 mm or 220 mm wide brushed steel, brushed gold, black or OAK CPL inlays flush with the door leaf, on both leaf sides. Applies to LEDA full only. Inlay types shown on pages 78-81
- two-sided inlays only in full leaf and on only on the active leaf in double-leaf doors
- the edge laminated in the same colour as the door leaf or, optionally plain black (NATUR OAK PREMIUM HORIZONTAL, black edge with a transverse structure)
- side and top panels glued to the wall (only when fitted with an 8 cm square) - page 134

HARDWARE

- four hinges; $\varnothing 16$; 3D adjustable (2D for the steel frame)
- thumb turn cylinder lock
- door closer for an additional charge

DOOR FRAMES

- fire rated fixed door frame
- fire rated gasket
- adjustable door striker plate
- adjustable steel, square large or welded frames in RAL 9010, 8003, 8017, 7035, 7016, 1005
- fixed frame made of black sheet metal, thickness 1.5 mm, RAL powder painted, welded in the corners, fitted with a fire rated gasket and door closer reinforcement as standard.

EXTRA CHARGES

fire rated arm door closer in colours: silver, black, white, brown

fire rated cam-action door closer (only for frames with or without housing with a clip-on square) in colours: silver, black, white, brown

fire rated ventilation grille

JOWISZ INOX handle, long face plate, lock core, see p. 127

30/40 lock core (EI30) or 30/50 (EI60)

fire-proof door viewer, satin, chrome

metallic hinge casings (matt chrome, black)

fire rated upper deadbolt lock

black door leaf edge finish

housing for EI30 from 100 to 460 and
housing for EI60 from 120 to 480 every 40 mm
double door housing

fire rated electric door strike (standard) 12/24V (not for a steel door frame)

steel door frame in RAL not in the range (intensive, pearl and metallic colours not included)

steel door frame made of galvanised sheet steel

HOW TO SELECT A LOCK CORE

Example of calculating the lock core size for the flush and stile doors (40mm) with the face plate thickness of G = 7 mm

$$A/B = (C+G+3) / (D+G+3)$$

$$A/B = (15+7+3) / (25+7+3)$$

$$A/B = 25/35$$

Door type	Door leaf thickness	Proportion of lock setting in door (C/D)	Recommended lock core size (A/B)*
Flush, stile (rebated)	40 mm	15/25	26/36
Flush, stile (non-rebated)	40 mm	20/20	30/30
reverse	40 mm	15/25	26/36
HERSE	46 mm	15/31	30/45
LEDA EI 30	50 mm	19/31	30/40
LEDA EI 60	60 mm	19/41	30/50
FORTECA RC2 & RC3	46 mm	20/26	30/40
HYPERION EI30 RC2	50 mm	19/31	30/40

* Recommended lock core size for the escutcheon thickness of 7 mm and play of 2 mm to 4 mm

- supplementary system ZN1

- supplementary system ZN2

- double-leaf doors

DOOR FACE FINISH TYPES

FINISH

The Finish laminate is pre-impregnated, which means printing and then coating with paint with required properties. Using the performance finishing coats adds to the surface's basic resistance.

GREKO

The Greko laminate is also pre-impregnated, which means printing and then coating with paint with required properties. Using the performance finishing coats adds to the surface's resistance and flexibility of the product. The paint's silicon content ensures the film resistance is enhanced.

The Greko laminate is manufactured on a high density Japanese base layer which is not resin coated. This makes the film ecological, healthy and safe for people and environment both in the production process and during use, as well as for disposal. No formaldehyde or other harmful ingredients is used.

Its distinctive patterns are what distinguishes the Greko film. The laminates bear striking resemblance to wood, as the high quality surface comes with a 3D natural wood effect. Woodgrain decors look just like wood

PREMIUM

The Premium laminate is a product based on Polypropylene (PP), a material of very high resistance to abrasion and scratching, plus top quality appearance. It adds a refined looks and individual character to the doors, as it imitates natural wood perfectly.

Not only does the Premium laminate attracts with its appearance but with its functionality, as it resists scratching better than average products and is fire-retardant and abrasion resistant.

These properties ensure the extended longevity and maintenance-free use of the PREMIUM range products even in most adverse conditions.

ST CPL, CPL 0,2 and CPL 0,7

The CPL laminate is composed of a decorative layer impregnated in resins, and a base layer ensuring flexibility. Following the lamination process, the top resin layer is hardened for high resistance to scratching and abrasion. It is characterised by high resistance to impact, abrasion, scratching, heat and UV radiation

Thanks to using this type of material, the door can be installed in so-called "difficult" interiors [exposed to heat, moisture or extraordinary use]. Approx. laminate thickness: ST CPL - 0,15 mm , CPL 0,2 - 0,2 mm and CPL 0 CPL 0,7 - 0,7 mm. The CPL 0.7 laminate is used to cover only one leaf plane thanks to its unique hardness. The CPL 0,2 and CPL 0,7 laminated door leaves come with the leaf edge made of the so-called ABS, a highly durable PVC.

ST CPL laminate in decors white, light grey, cappuccino, black has been refined in the AntiFinger coating limiting dirt and fingerprints. **NEW**

UV VARNISH

The door surface has several coats of the WHITE TITANIUM UV modern UV hardened varnish.

The flat surfaces are covered with a specialist base membrane in the first phase, and then coated twice with a top quality paint and hardened with UV.

The moulded surfaces cannot be covered with the membrane for technological reasons, so they are coated with three paint layers and hardened with UV.

The fully automatic coating process follows scanning to ensure ideal quality of the surface. Hardening the paint with the cutting-edge method involving UV light source ensures very high mechanical resistance.

EDGE FINISH TYPES

EDGE SOFT

The SOFT door leaf comes with a chamfered edges, which lends an aesthetic and modern look to it. The leaf is finished with a laminate of an improved resistance to scratching, which dramatically enhances its resistance during use.

STANDARD EDGE

It involves covering the flat plane with the 0.15 mm ST CPL laminate, CPL 0.2 , CPL 0,7 laminates, polypropylene PREMIUM laminate, GREKO laminate or FINISH film.

The door leaf made in STANDARD technology has unchamfered edges, which is where the face panel is joined with edging laminate, as shown in the diagram. The laminate in the CPL 0.2 and CPL 0,7 laminates is made of very durable PVC, the so-called ABS. The joining method of the laminate is also identical for the non-rebated doors and non-rebated sliding systems.

¹⁾ applies only to BALDUR 1 in WHITE ST CPL laminate with solid core filling

STILE DOOR LEAF

Rebated door leaf

- A** MDF or timber stiles in PREMIUM laminate
- B** MDF rails

PANEL DOOR LEAF

Rebated door leaf

- A** MDF board; **B** gasket; **C** HDF board; **D** filling;
- E** MDF or timber stiles in Herse SET and UNO PREMIUM

Solid 35 mm or 22 mm thick rail

Aesthetic frameless tongue-and-groove glazing without bars

FILLING TYPES

Honeycomb

solid core filling

MDF stile for the GREKO and CPL laminates with the AntiFinger coating **NEW**

Glulam timber stile for PREMIUM and CPL surfaces without the AntiFinger coating

Honeycomb and solid core filling in the panel doors ONLY. For the flush doors we add a third hinge as standard.

BATHROOM TURN & RELEASE

outside (Z)

inside (W)

A Corridor; **B** Bathroom; **C** Wall

Bathroom lock – for turn and release locks, select:

OUTSIDE lock – with the bathroom turn and release is fitted to the outside of the door (Z)

or

INSIDE lock – with the bathroom turn and release is fitted to the inside of the door (W)

NOTE: Directions for the turn and release locks apply (R/L)

STANDARD OBLVERSE GLAZING

REVERSE GLAZING MADE TO ORDER:

G Plain side; **M** ornamental matt side;

Specially designed HALSPAN board filling 44 mm [EI30] / 54 mm [EI60]

Fire rated and smoke intumescent door gasket in red or black

Drop-down gasket with pressure adjustment by Allen key

Fixed door frame

Useful four hinges $\varnothing 16$ with 3D adjustment

CONCEALED MAGNETIC STOPS NEW

chrome glossy, chrome satin, brass glossy, colourless, white semi-matt, black semi-matt

We assemble the magnetic door stop in a special place milled for this purpose on our own.

Product delivered as a separate assortment.

Caution (important information in case of underfloor heating): the floor element should be placed in the $\varnothing 14$ mm hole, 45 mm deep.

METAL CAPS FOR HINGES

Brushed nickel, patina, glossy chrome, glossy brass, white matt and black matt

Available casings:

- for Herse/Forteca $\varnothing 16$, length 47 mm in colours: brushed nickel, patina, chrome gloss, brass gloss, white and black
- Hyperion Leda $\varnothing 16$, length 64 mm in colours: chrome matt, black
- for interior leaves $\varnothing 15$, length 47 mm in colours: brushed nickel, patina, chrome gloss, brass gloss, white and black

VENTILATION

Plastic sleeves for FINISH colour group

Plastic woodgrain sleeves for STILE doors with GREKO, PREMIUM and CPL decors

Square and round metal sleeves

Grilles

VENTILATION

Ventilation door cut not available in non-rebated door leaves for wall-mounted and pocket sliding doors.

ELECTRIC DOOR STRIKE

(available for fixed and adjustable door frames for rebated doors, see p. 161-163, but unavailable for the door frames used with the GRAF glass panes and double-leaf doors)

Types of electric door strikes:

- basic 12 V
- basic 24 V
- switch operated 12 V
- switch operated 24 V
- reverse 12 V
- reverse 24 V

BASIC

SWITCH OPERATED

REVERSE

- normally closed, and opened when voltage is fed

- same operation as in the basic strike, but with an option to be switched off by moving the springbolt

- closed when voltage is fed, opened when not

The reverse and switch operated electric door strikes unavailable for the fire doors

CUTTING THE DOOR LEAVES

Cutting the door leaves to size by customer acc. to Polish standard, up to 50 mm, or up to 80 mm for the HERSE SET door leaves (unless pre-cut), as well as in the panel door leaves, is possible if an additional lower strip has been fitted by the manufacturer.

(NOTE: cutting the door leaves to size by customer is not allowed for the FRAGI doors, double-leaf and fire doors, non-rebated leaves for sliding systems, glass GRAF doors, FORTECA RC2 and FORTECA RC3 burglar-proof doors, and stile doors acc. to the CZ standard).

The door leaf height made acc. to the so-called CZ standard is lower than the PL standard by 47 mm.

Leaf type	Handle height (measured from the bottom edge of the leaf) [mm]
STILE rebated leaves	1107
STILE non-rebate door leaves	1110
rebated panel door leaves	1110

SLIDING SYSTEMS

WALL-MOUNTED

WALL-MOUNTED SLIDING DOOR SYSTEM:

SINGLE SP1Nz (with bolt keeper)	
SINGLE SP1Nb (w/o bolt keeper)	
DOUBLE SP2N	

Price includes:

Aluminium track with a cover profile and door stop in the colour of the door leaf and length:

- 210 cm for "100" leaves
- 200 cm for "90" leaves
- 180 cm for "80" leaves
- 150 cm for "70" "60" leaves

Available wall-mounted sliding system sets

- Track with a cover profile and door stop with gasket (only SP1Nz & SP1Nb)
- Track with a cover profile and tunnel door frame (only for SP2N)
- Track with a cover profile and door stop + tunnel door frame (only SP1Nz & SP1Nb)
- Track with a cover profile and door stop with gasket + tunnel door frame (only SP1Nz & SP1Nb)

The non-rebated door leaf for wall-mounted sliding system cannot be cut to size.

The cover profile is neither laminated nor paint coated on the inside.

EXTRA CHARGES

tunnel type adjustable door frame for the price of the adjustable door frame

hook bolt lock with hardware
only for the single system

oval, rectangular or round pull handle; glossy chrome, brushed chrome, glossy brass, black matt; two pcs. of pull handles per set

synchronisation
simultaneous opening and closing of the door leaves using only one leaf; only for SP2N

soft closing damper
automatic leaf damping during the final closing phase
only for SP1Nz and SP1Nb

ROUND, OVAL AND RECTANGULAR PULL HANDLES

Glossy chrome, brushed chrome, glossy brass, black matt

HOOK BOLT KEY LOCKS

Glossy chrome, brushed chrome, glossy brass, black matt

Key only in silver

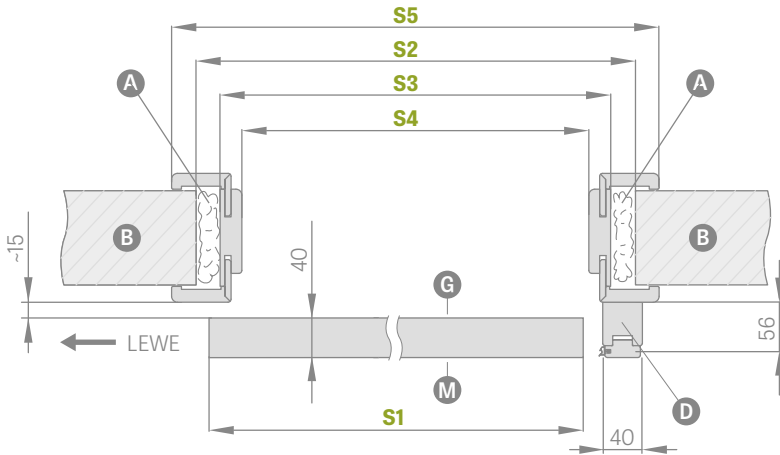

The hook bolt key lock comes with two pull handles to choose

- 200 cm for "60" "70" "80" leaves

- 250 cm for "90" "100" leaves

B – wall **C** – floor **D** – wall mounted buffer
E – guide **F** – guide connector ²⁾

¹⁾ the leaf in the closed position overlaps 35 mm on each side

²⁾ a guide for double-leaf system consists of two guides connected with a connector

WALL-MOUNTED SLIDING DOOR SYSTEM

LOFT Type

LOFT, decor OAK ST CPL, round pull handle, RETRO leaf bracket

LOFT Type wall-mounted sliding door system is available in black and comes complete with the LOFT Type plain door leaf. The LOFT door leaf comes with the stabilising "honeycomb" filling as standard or solid core for extra charge. The door leaf features a non-rebated edge. The system is designed for clear finished opening, without a tunnel.

The complete system includes the sliding LOFT system + LOFT door leaf + pull handle + door closer on one or both side(s).

The double LOFT system is counted as 2 x single system + connecting rail element.

Choice of two brackets holding the leaf: INDUSTRIAL and RETRO.

DOOR FRAMES

- The adjustable and fixed rebated door frames can be used for all types of ERKADO internal doors made in both flush and STILE technologies.
- The adjustable non-rebated door frames can be used for internal doors made in both flush and STILE technologies. These door frames are supplied with three concealed hinges.
- The door frame is made with high quality MDF board and covered with durable wood grain film or coated with durable UV paint.
- Depending on the technology, the door frames are laminated with: FINISH, GREKO, CPL, PREMIUM and UV paint.
- The frames for STILE doors have a third hinge as standard.
- Each adjustable and fixed frame comes complete with disassembled frame components, hinges and screws. The components are supplied with pre-drilled holes for fixing.
- Each set is enclosed with assembly manual and warranty certificate.
- The fixed door frame for Herse collection is rectangular and its core is made of glulam timber.

TUNNEL TYPE ADJUSTABLE DOOR FRAME

REBATED / NON-REBATED

TUNNEL TYPE DOOR FRAMES

The tunnel type door frames are adjustable door frames without any hardware. They are made with a top strip and two vertical strips.

They can be used to finish door openings and safeguard wall corners, but mainly are fitted for interior decoration effects.

The tunnel type adjustable rebated door frames are also used in the ERKADO sliding systems.

The tunnel type adjustable non-rebated door frames are not used in the sliding systems.

Depending on the system, we use the following rebated tunnels:

TUNNEL FOR SP1N	Wall-mounted single sliding system
TUNNEL FOR SP2N	Wall-mounted double sliding system
TUNNEL FOR SP1C.100	Single "100" pocket sliding system
TUNNEL FOR SP2C.100	Double "100" pocket sliding system
TUNNEL FOR SP1C.125	Single "125" pocket sliding system
TUNNEL FOR SP2C.125	Double "125" pocket sliding system
Encasing ZN1	Wall encasing for one side of the single leaf systems SP1C.100 and SP1C.125
Encasing ZN2	Wall encasing for one side of the double-leaf systems SP2C.100 i SP2C.125

ADJUSTABLE OVERLAY DOOR FRAME

FOR STEEL DOOR FRAMES

HANDLE POSITION IN AN OVERLAY DOOR FRAME

L – distance between the handle centre line and the frame strip edge
 L = 23 mm for panel doors, SYDNEY or QUBIK handle, with long face plate, p. 126
 L = 28 mm for STILE frame doors (all interior door handles presented in the offer are available)

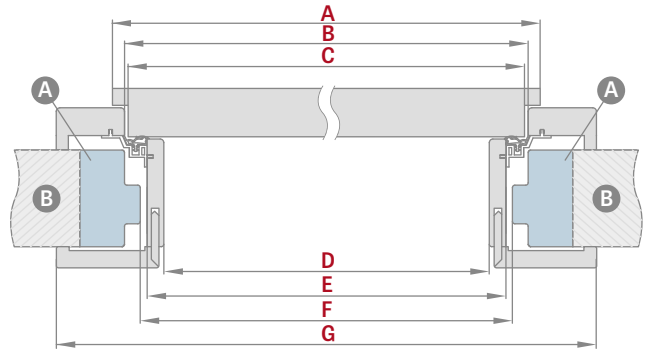

NOTE: Check the handle face plate dimensions before installation.
 Adjustable overlay door frame of over 200 mm consists of two components, and a frame of over 320 mm consists of three elements.

AVAILABLE WIDTHS FOR OVERLAY FRAMES:

"100"	1044	1024	1018	964	992	998	1133

F – min dimension of the steel frame opening, on which to fit an overlay door frame. This dimension can exceed the recommended one by max 20 mm. For greater frame opening, ensure the architraves cover the wall appropriately.

¹⁾ allowable deviation due to frame dimensional tolerance of +- 3 mm (we recommend to check before installation)

- A** – steel door frame
- B** – wall
- C** – floor
- D** – handle
- E** – aluminium profile with gasket
- Z** – range from 80 mm to 255 mm

- 120 mm extension for overlay frame
- Standard square for an overlay frame
- Square with extended tongue
- Tunnel type door frame for widths of 60, 70, 80, 90, 100 are at the price of the adjustable overlay door frame.
- The tunnel is of the same dimensions as the overlay door frame and is not pre-drilled for hinge or door striker plate, but is supplied with a gasket.

Edition I/2022/A applies as of 01/03/2022.

The door should be selected on the basis of a basic design of a facility, prepared considering all applicable standards and provisions of law, as well as frequency and conditions of use. ERKADO offers several variants, but leaves the final choice to the Buyer, because only the Buyer or their representatives knows the purpose and conditions of use for the product to be ordered.
